

“BLESSED ARE THE MERCIFUL,  
FOR THEY SHALL OBTAIN MERCY.”

## How is the 2017 TIA Goal Determined?

Our finance office calculates the three-year average of your parish's assessable income. Then they calculate what percentage your average is of the total Diocesan Assessable Income. That percentage is then applied to the \$2,000,000 Diocesan Goal for Together in Action.

Example: Our Lady of Calgary Parish

Parish assessable income	2014	2015	2016
	\$1,000,000	\$1,250,000	\$1,125,000
Parish's assessable income three-year average			\$1,125,000
Total Diocesan Assessable Income			\$20,500,000
Parish's percentage of the \$20,500,000		$(\$1,125,000 / \$20,500,000) = .05\%$	
The 0.05% applied to the \$2,000,000 goal determines the parish portion.			
		$\$2,000,000 \times .05\% = \$100,000$	
Our Lady of Calgary's TIA 2017 Goal			\$100,000
